

KG10 Descale

For automatic machines & equipment

Highly effective, low foaming, multi-purpose acidic liquid detergent for the removal of lime scale from all types of industrial automatic dish & glass washing machines.

Quickly removes lime scale and heavy soiling.

NSF-certified product.

- Highly effective concentrated acid based product.
- Safe to use on stainless steel.
- For use in all types of industrial automatic dish & glass washing machines.
- Suitable for removing scale from a variety of kitchen equipment.
- NSF-Approved acid cleaner for use in and around food processing environments following the use instructions on the product label.

HOW TO USE

DISH & GLASSWASHING MACHINES

Switch off dosing pump. Fill machine with clean water. Prepare a 5% solution by pouring DESCALE into machine at a ratio of 2ltr per 40ltr capacity. Leave for 2-3 minutes. Switch on machine & circulate the solution for between 5-10 minutes. Drain the solution & refill with fresh water. Circulate the water for a further 3 minutes and drain. Air dry by leaving the machine door open. Switch on dosing pumps.

DESCALING BAIN MARIES, BOILERS, TEA & COFFEE URNS

Dilute 1:25 parts warm water (200ml per 5ltr) 1 cupful per 5ltr. Pour into vessel and allow to soak for 5 minutes. Drain solution, scrub surface with a stiff brush. Rinse thoroughly with clean water. Descale on a regular basis to maintain efficiency of machine and extend the life of the heating element.
