

KG13 Safex

Powder Detergent Disinfectant

Specialised formulation designed for the manual cleaning & disinfection of food processing & production areas with multi-purpose applications in Food, Catering, & Healthcare.

Broad spectrum microbiocidal efficacy. Tested to EN 1276 and EN 13727.

Ideal for use on a wide range of equipment and surfaces.

- General purpose mildly alkaline powder detergent disinfectant for use in the food & healthcare industries.
- Readily soluble powder formulation.
- Powerful surfactant system provides excellent soil penetration and removal.
- Easy to use and free flowing.
- Economical in use.
- Supplied in airtight container.
- Effective in hygiene sensitive areas.
- Multi-purpose usage; ideal for use on food contact surfaces, equipment, baths & sinks, walls, floors & drain areas.
- NSF-approved as a sanitizer for use as a sanitizer on all surfaces always requiring a rinse in and around food processing areas.

HOW TO USE

Dissolve 10-20 g per litre of hand hot water and apply to surface to be cleaned or immerse item in the solution. Agitate surface with a scrubbing pad or brush and leave for 10 minutes. Rinse surface or item with clean water.

FOR CUTTING BOARDS

Leave on surfaces for 10 minutes, agitate with brush or green pad, rinse off with clean water.

FOR IMMERSION CLEANING

Make up a solution of KG13 Safex as above in a suitable container and immerse the items to be cleaned. After 15 minutes contact time, scrub the item using an abrasive pad and rinse off with clean water.

FLOORS & DRAINS

Solution can be used for floor cleaning by mop or brush prior to being poured down drain channels and final rinsing off with clean cold water.

DIRECT SHAKER APPLICATION

Pre-wet surface. Sprinkle KG13 Safex 500g shaker pack directly onto surface and agitate with a scrubbing brush or pad. Rinse off.

PACKAGING

PACK
10Kg

PRODUCT CODE
661222PG

PALLET SIZE
48 x 10Kg

TYPICAL PRODUCT DATA

Appearance: Pink crystalline powder
Odour: Faint odour of chlorine
pH - (Neat): -11-13.5
Shelf life: 2 years

COMPOSITION

Contains a blend of surfactant, alkalis, inorganic sequestrant and chlorine based bleaching agent.

STORAGE

Store in original sealed container and protect from extremes of temperature.

BIODEGRADABILITY

All surfactants used in Guard Pro products comply with European Regulations concerning biodegradability and protection of the environment.

APPROVALS & CERTIFICATIONS

Complies to SASO Standard 2618 / GSO 1948
Approved by Dubai Municipality-Consumer Products Safety
Tested to EN 1276 and EN 13727
Certified by NSF International
